

# ThedaCare®

## Laboratory Specimen Drop Off Locations

- ✓ Urine, 24-hour urine, stool, and post vasectomy (semen) are all specimens that can be collected at home and dropped off at ThedaCare locations.
- ✓ We do not require an appointment for a drop off but highly encourage one so we can provide the best experience possible.
- ✓ Specimens must be labeled with patient name, patient date of birth, collect date, and collect time.
- ✓ All patients dropping off specimens must first register.
- ✓ For urine and stool samples, returning the home collect specimen(s) to the location the collection supplies were handed out at it is preferred.
- ✓ For post vasectomy (semen) screen samples, returning home collect specimen(s) to any of the locations below immediately after collection is required.
- ✓ Lab collection locations are closed outside of hours stated. Holiday hours may vary.
- ✓ If you have any questions or concerns about the home collection process or drop off locations, please contact your healthcare provider.
