## Article Guidance

### Article Text

It has come to our attention that services submitted for screening for cervical cancer with Human Papillomavirus (HPV) Testing have been reported incorrectly. This Billing and Coding Article provides billing and coding guidance for these services.

### Coding Guidance

**Notice:** It is not appropriate to bill Medicare for services that are not covered as if they are covered. When billing for non-covered services, use the appropriate modifier.

Consistent with National Coverage Determination (NCD) 210.2.1 screening HPV services are to be billed with Healthcare Common Procedure Coding System (HCPCS) code G0476. These services require dual diagnosis codes. It is incorrect to report these screening services with Current Procedural Terminology (CPT®) code 87624 [Infectious agent detection by nucleic acid (DNA or RNA); Human Papillomavirus (HPV), high-risk types].

Please refer to NCD 210.2.1 for complete information on screening for cervical cancer with Human Papillomavirus (HPV).
