Re: **Hypersensitivity Pneumonitis Panel Assay Testing Laboratory Change**

The Immunology Laboratory's current assay for Hypersensitivity testing has been discontinued due to reagent supply issues with the vendor. Hypersensitivity testing will now be sent to ARUP laboratories. Please note that the ARUP panel (test code 3000477) does not include *Thermoactinomyces Vulgaris #1*, *Thermoactinomyces Vulgaris #2* and *Aspergillus Niger* but does include *A. fumigatus #3* (highlighted in yellow).

HUP Panel	ARUP Panel (3000477)
Thermoactinomyces vulgaris #2	
Pigeon serum	Pigeon serum
<i>Micropolyspora faeni</i>	<i>Micropolyspora faeni</i>
<i>Saccharomonospora viridis</i>	<i>Saccharomonospora viridis</i>
<i>Aspergillus fumigatus #1</i>	<i>Aspergillus fumigatus #1</i>
Thermoactinomyces vulgaris#1	
<i>Aspergillus flavus</i>	<i>Aspergillus flavus</i>
<i>Aspergillus fumigatus #2</i>	<i>Aspergillus fumigatus #2</i>
<i>Aureobasidium pullulans</i>	<i>Aureobasidium pullulans</i>
Aspergillus niger	
<i>Aspergillus fumigatus #6</i>	<i>Aspergillus fumigatus #6</i>
<i>Thermoactinomyces candidus</i>	<i>Thermoactinomyces candidus</i>
	Aspergillus fumigatus #3

The order code is now HYPERSENSITIVITY PNEUMONITIS PANEL (PIGEON SERUM, M FAENI, S. VIRIDIS, ASP FUMIGATUS1, ASP FLAVUS, ASP FUMIGATUS2, AUR PULLULANS, ASP FUMIGATUS3, ASP FUMIGATUS6, T. CANDIDUS) **[86331C]**

Tube type (SST) will not change.

Reference range is reported as None Detected.
