

## Laboratory Test Update

**Date:** August 27, 2024

**To:** All providers

**RE:** ARUP - Amphetamine (D/L Differentiation), Urine

Beginning **Tuesday, September 3<sup>rd</sup>**, ARUP - Amphetamine (D/L Differentiation), Urine will now be orderable using **LAB4101**. This lab order will replace the miscellaneous ordering currently in practice. Testing will still be sent to and completed by ARUP. This testing should be used if a patient has an unexpected Methamphetamine result and differentiation of isomers is necessary

If you have additional questions please contact Erin Lasley, Toxicology Supervisor, at 859-301-6083.
