

TEST CHANGE – COMPONENT CHANGE

Notification Date: December 12th, 2024

Effective Date: December 16th, 2024

Explanation: On the effective date, the Molecular Diagnostics Laboratory will transition to a new NGS bioinformatics pipeline and analysis platform for gene variant interpretation. The report will have a different format but retain the current report's key components.

Test ID: LAB6270 – Myeloid NGS Panel, Whole Blood, Bone Marrow

Questions: Please get in touch with our laboratory at moleculardiagnosticlab@vumc.org if you have questions or get in touch with Vanderbilt Medical Laboratories Customer Service at 615-875-5227 (5-LABS) or 800-551-5227 or visit our website: [Home | Vanderbilt Medical Laboratories \(vumc.org\)](https://www.vumc.org)
